Seeing Through Nieve/Snow's Eyes

The polar bear Nieve/Snow is new to the jungle and new to her school. We have all been "new" at one time. Making and wearing this mask might help you feel what it is like to be Nieve/Snow. New kids and immigrants feel welcome when you say in words and actions, "I know how you feel."

What you need:

- 1 pair of scissors
- some string
- a hole punch

What to do:

1. let an adult cut along the grey lines
2. punch holes into each tab
3. tie string through the holes in the tabs
4. wear the mask and throw a snowball
